Mindful eating

A Road to Wellbeing

The art of practicing mindful eating builds a **strong mind-body connection** and improves your relationship with food. By becoming more aware of your body's hunger and fullness cues, it becomes easier to discern what is emotional hunger and what is physical hunger. This can help you overcome emotional and mindless overeating, which in turn will have a positive impact on both your mind and your body.

Often, overeating is a reaction from restriction and not allowing yourself to have certain foods. When practicing mindful eating, all foods are allowed and when fully experiencing the food, you will likely find yourself content and not craving more.

2 WELLNESSES

- **STICKING TO A CONSISTENT MEAL ROUTINE** will help with hunger cues coming at regular intervals and it becomes easier to distinguish between emotional and physical hunger.
- **PREPARING MEALS AHEAD** ensures that you always have balanced nourishing meals prepared and don't resort to quick fixes.
- **CHOOSING THE RIGHT HEALTHY SNACKS** if feeling hungry in-between main meals like fruits and vegetable sticks, low fat yoghurt with berries, Wellness by Oriflame Nutrishake.
- **MOVING YOUR BODY** can help reduce boredom and stress, and get you mind of food. Take every opportunity to move; all the small things add up!
- **Mindful eating** is not a diet but a mindset! Make sure to ask yourself, am I hungry or am I just bored or stressed?

WHAT IT DOES: Provides the highest level for PA protection (PA++++), including UVA and UVB filters, to shield against skin-ageing sun damage. Protects the skin from the harmful effects of the environment and intensely moisturises.

Anti-Ageing & Moisturising

—infused with actives to give moisture back to the skin and protect it from dehydration. Also contains Vitamin E, a powerful anti-oxidant to help protect the skin from free radicals, a major skin ageing factor.

Pollution Protect Technology

— Helps to minimise the impact of environmental aggressors such as pollution. Works like a second skin, forming an ultra-fine film on the surface of the skin, shielding it from the environment.

Broad Spectrum UV Filters

—The highest SPF Protection through the UVA and UVB filters to help protect skin from harmful rays. UVA rays are the main contributors to premature skin ageing and PA++++ is the highest level of UVA protection available to help prevent uneven skin tone, dark spots and wrinkles.

HOW TO USE:

Apply everyday in the morning, after your NovAge skincare routine. Re-apply throughout the day as necessary. Avoid direct contact with the eyes.
