

OCTOBER 2022

EARNING *Respect* THROUGH WELLTH!

UPDATED WITH
MONTHLY SCHEMES

My Dear Vestigians,

I extend my hearty greetings to all of you for helping Vestige triumph and success. Since its inception, Vestige has been growing at a phenomenal rate, thanks to you and your diligence. I am sure, at this pace, Vestige will reach such peaks of success that no other Indian direct selling company has even dreamt of.

Our increasing global presence and our continuously expanding product portfolio testify that Vestige is not going to stop at any point but raise the bar continuously to achieve more. It is this desire to achieve more that drives a person or an organisation towards success. We at Vestige never feel content with our achievements and this is a reason that we never stop surpassing records set by ourselves.

My dear Vestige family members, remember in Vestige's world, health connects us all – which is also the theme of our 18th year. We believe, health connects everyone, our customers, our distributors, our partners, our vendors, you and us. This is why we emphasise on health.

My dear Vestigians, we have one life and so much to achieve. You have already done some incredible things that are unprecedented in the direct selling industry. Now we have to do more, we have to double our efforts so that Vestige can become the world's topmost direct selling company. We have sailed amidst rough weather and faced tough situations to become a veteran player. Now, nothing can be considered impossible for us in Vestige as we ought to bring changes that no one has ever seen in this industry. I hope to see you on higher peaks of success in the future, which inevitably belongs to Vestige.

Wish You Wellth!

Gautam Bali
Managing Director

Growing Globally

Vision

To help people live a life of economic independence on their own terms.

Mission

To grow to a global scale and become the benchmark in direct selling industry.

The Triumphant March of Wellth

When the Indian direct selling industry started its journey in the 1990s, it was dominated by a few foreign companies whose plans and products didn't connect well with the unique demands of the diverse Indian market and the entrepreneurs who took up direct selling as a career.

One of the pioneers of Indian direct selling industry, Gautam Bali took upon himself the task of finding a sustainable solution that can empower direct sellers to experience a total transformation, both in terms of wellness and financial security. His thoughts were translated into action when Mr Bali, along with two seasoned direct selling experts, Kanwar Bir Singh and Deepak Sood, developed a robust business plan and founded Vestige in 2004, a company that brought a wellness revolution in the Indian direct selling industry.

Now, after 18 successful years of excellence, Vestige is considered a pioneer in blending wellness with financial freedom in India. Vestige is now famous for world-class wellness products and a robust marketing plan. This innovative and accumulative marketing plan of Vestige and its focus on wellness triggered the quest for Wellth; wealth earned through wellness.

Vestige believes health connects us all, i.e., the distributors, consumers, management, employees, partners and the whole universe. Through health, Vestige connects the world.

Vestige is taking the gift of Wellth globally and helping people live a better life. Thousands of aspiring entrepreneurs are prospering every year through the route of Wellth and earning respect in the society.

The background of the entire page is a photograph of two people jumping joyfully on a beach at sunset. The sun is low on the horizon, creating a bright orange and yellow glow that reflects on the wet sand. The silhouettes of the two people are clearly visible against the bright sky. The person on the left is wearing a long-sleeved top and pants, while the person on the right is wearing a short-sleeved shirt and shorts. Both have their arms raised and legs spread wide in a celebratory pose.

Health Care

Being healthy is important because it can help a person have a healthy heart, better muscles, stronger bones, a sense of well-being and a better social life. Eating right and correct exercising will lead to overall better health. When exercise and healthy eating are achieved on a daily basis, people tend to feel better about themselves. While the spectrum of health problems resulting from calorie-protein undernutrition is different from the "empty-calories" overfeeding, both can have devastating consequences on both quality of life and longevity.

So, Vestige brings a range of products to fulfil the daily gap of nutrition for an individual. The range consists of health supplements for healthy immunity, cardiovascular system, glycaemic health, detox and rejuvenation, women health, fitness and for healthy bones and joints.

This range of supplements from Vestige enables people to live a qualitatively better healthy life and step into the world of wellness.

ayusante™

Inspired by ayurveda Powered by science

Ayurveda is a traditional science of medicine with its roots in India. The word Ayurveda is a Sanskrit term meaning the science of life. Ayu means life or daily living and Veda is knowledge. Ayurveda was first recorded in the Vedas, the world's oldest extant literature. Ayurveda is a 5000-year-old wellness practice, originating long before the western world even started thinking about wellness.

Powered by science

Ayurveda is the natural way to wellness. However, Ayusante believes that a rigorous scientific process reassuring consumers is needed to overcome one of the key challenges that Ayurveda faces. Therefore, we focused our energies and resources on developing products, which are built on three pillars

• Efficacy • Purity • Safety

Our goal can be stated as 'Validation of ancient wisdom through scientific interpretation'.
